16 MEMBER ORGANIZATIONS ON THE POLICY STEERING COMMITTEE

Alliance for Girls has been building a powerful #GirlsPolicyAgenda to address girls' needs, led by girls and girls' champions. Our #GirlsPolicyAgenda builds off of Together, We Rise, a young women-led research report we completed in partnership with the Women's Foundation of California. The report identified key issues impacting girls such as:

1. the severity of the public safety crisis facing girls in schools, on public transportation and in the community.

2. the gaps in the social safety net for the most marginalized girls in our communities including young mothers, and

3. the impact of toxic gender norms on girls' daily lives, including the normalization of violence, social isolation, low expectations, and being kicked out of their homes.

Our #GirlsPolicyAgenda is co-designed by girls and community members.
